Teachers play a great role in building a strong nation. They guide students and help them develop good character. I like this profession because it allows a person to serve society and the country. The field trip to the Bangladesh National Zoo was one of the most enjoyable and memorable experiences of my school life. Last month, our school arranged a field trip for the students of Class Five. We went to the Bangladesh National Zoo at Mirpur in Dhaka. I was very excited because it was

my first visit to a zoo with my classmates. Two buses were hired by the school to take us there. The day was bright and sunny. We started our journey at 8:00 a.m. with two of our teachers. We sang songs and talked happily on the bus. We reached the zoo at about 9:15 a.m. Our teachers bought the tickets, and then we entered the zoo. Inside the zoo, we saw many kinds of animals and birds. We saw lions, tigers, elephants, giraffes, deer, monkeys, snakes, crocodiles, and striches. We also saw many colorful birds. The animals looked very interesting, and we learned a lot about them from our teachers. We took some photographs and enjoyed the beautiful environment. We stayed at the zoo for about three hours. My favourite sport is football because it is exciting, enjoyable, and good for health. I love both watching and playing football. It is one of the most popular sports in the world and is loved by millions of people. Football is played between two teams. Each team has eleven players. The players try to score goals by kicking the ball into the opponent's goalpost. The team that scores more goals wins the match. A referee controls the game and makes sure that the rules are followed. As a Bangladeshi, I support the Bangladesh National Football Team. I feel proud when our team plays international matches. My other favourite teams are Argentina, Brazil, and France. They all have talented players and exciting playing styles.
